

Meet the Specialists

The award winning team at Basildon Women's Aid are pleased to announce a further series of awareness sessions.

The awareness sessions are aimed at individuals and organisations and provide comprehensive specialist, experienced staff to share their knowledge.

Intended for both professionals and service providers from the statutory and voluntary sectors, the 2009 Awareness Sessions are designed to raise awareness of the dynamics and diversity that have an impact on domestic violence victims and the community.

All our sessions feature the services that are available to victims within Basildon Women's Aid and are presented to small groups of up to ten people.
